

AvizSazeh Brand Guide v1.0 — UPGRADED EDITION

1. Brand System Overview

AvizSazeh is an Architectural Engineering System Brand focused on transforming architectural intent into buildable ceiling systems.

2. AECS Color System (Final)

Engineering: #1F2328, #3D3D3D, #4B5563 | Architecture: #ECE9E3, #B7B0A5 | Accent: #B89A63 (10% max)

3. Logo System (Architectural Transformation)

Line → Module → System → Transformation Point. No building symbols. No decorative geometry. Grid-based construction only.

4. Logo Variants

Variant A: Linear Transformation (Recommended) Variant B: Modular Grid System Variant C: Controlled Convergence System

5. UI Design System

12-column grid, engineering-first UI, gold only for CTA, no gradients, no decorative UI elements.

6. Homepage Architecture

Hero (Engineering Dark) → Trust Layer → Projects → Systems → Engineering Proof → CTA (Gold Accent)

7. Target Perception

User must perceive: Engineering Authority → Architectural System Provider → Execution Partner

8. Global Benchmark

Comparable to Siemens, Autodesk, Hunter Douglas, SAS International in architectural engineering positioning.
